

Quality Training Solutions UK Ltd

Fire Safety Management

Due to the cost of accidents, litigation and negative publicity for non-compliant organisations; it is not only a legal requirement, but it makes good business sense for the employer to manage fire safety within that particular business undertaking. The aim of QTS UK Ltd is to provide the client with high value products and services which are both meaningful to the organisation and legally compliant. Our fire safety management systems and training programmes will undoubtedly assist with creating a more positive fire safety culture for your organisation.

Every year safety regulations become more complex and it is difficult for companies to keep up-to-date with the latest legislation. Effective management is the key to protect you and your company from accidents, litigation and bad-publicity, etc. QTS UK Ltd have experienced fire safety professionals who strive to provide cost effective solutions to problems faced by our customers. Our fire safety management systems are designed to be simple for the customer to follow, as we realise that you have a business to run and do not want to be tied up with complicated and unnecessary paperwork.

From simple fire risk assessments to comprehensive bespoke fire safety managements systems, **QTS UK Ltd** provide services that are both legally compliant and meaningful to your organisation. We can assist you with the formation and review of your fire safety documentation, undertake and support you with your fire risk assessment, provide fire safety training and undertake fire safety inspections or audits to benchmark your company's progress. You also have access to qualified health and safety/fire safety consultants and up-to-date independent advice, whenever you need it.
